Program Research & Recommendation

New Program Proposal Form

☒ **Degree** ☐ **Certificate of Achievement**

New Program Title: STEM Foundations

Initiator: Patrick McDougall **First Semester Intended to Offer:** Fall, 2024

Program Description:

Many STEM majors share foundational prerequisite coursework. This degree contains some of the courses that will help students prepare for a more specific STEM major (Chemistry, Computer Science, Engineering, Mathematics, and Physics) and make progress toward transferring to a UC or CSU STEM program. The specific requirements for transfer will vary by major and campus, so it is important that students meet with a counselor about their goals in selecting which courses to take for this degree.

Program Courses:

Course No.	Title	Units
	See narrative for full list. There are many options so the list will not fit on this form.	

Potential need for/interest in program:

See narrative

Program needs: (general fund requirements, equipment needs, facility/space requirements, etc.)

See narrative
