6. Program Description: *

Musical Instrument Fabrication and Repair programs prepare individuals to apply technical knowledge and skills to make, repair, maintain, and tune acoustic and electric musical instruments. This would be a CTE program.

7. Potential Need for or Interest in Program: *

The North State has no easily accessible musical repair store or training program. There are many schools and individuals who need to have their instruments serviced. Additionally, there are only two schools on the west coast the offer repair training programs. This program is ripe for opportunity.

8. Program Needs: (general fund requirements, equipment needs, facility/space requirements, etc.) *

Space will be the primary challenge. We will need to purchase repair tools/instruments. We have plenty of old instruments that need fixing!
